

## Happy Birthday on Mars

In the land of the red red ground,  
Another year has come around.  
Where cake or candles can't be found,  
It's a happy birthday on Mars.

Happy birthday on Mars,  
Out here among the stars.  
Where a year is longer by far,  
So we feel younger than we are.

Back on Earth it's called outer space,  
But Mars is now our cozy home base.  
Give three cheers to this awesome place.  
It's a happy birthday on Mars.
